OUR PORTFOLIO AT A GLANCE

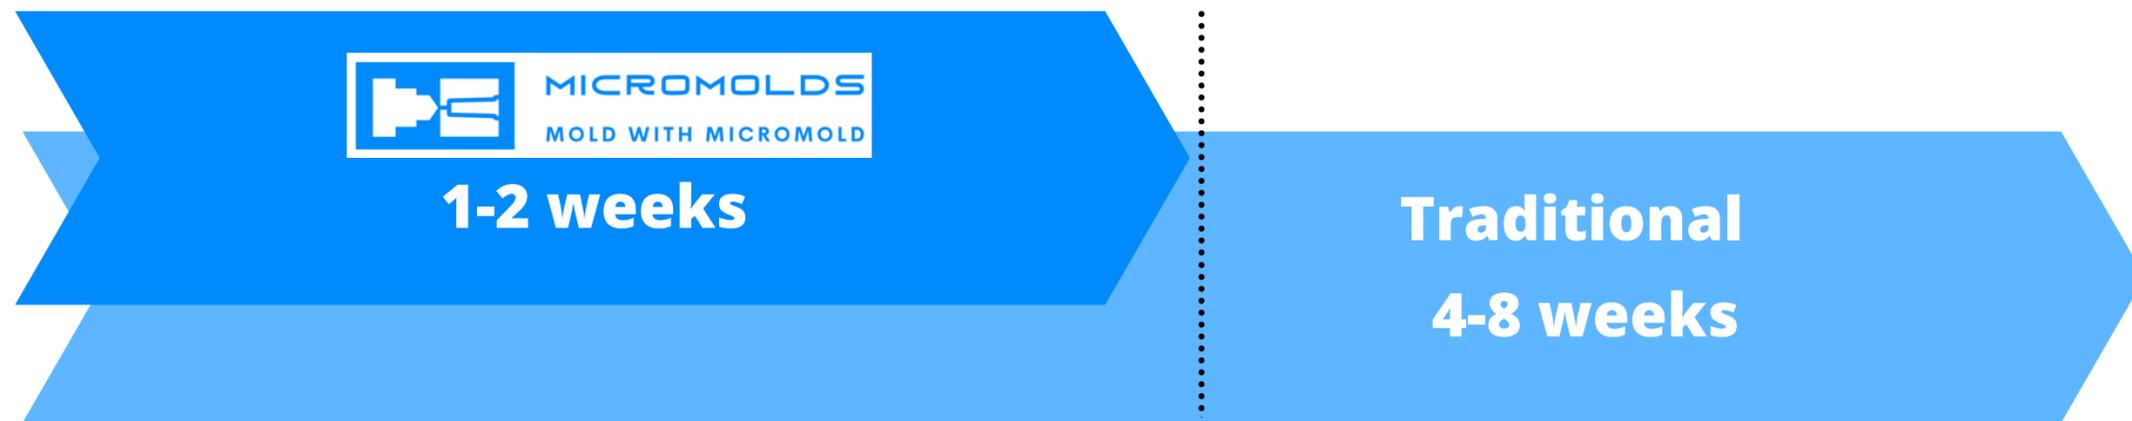

A CLOSER LOOK

MICRO MOLDING FOR SMALL COMPONENTS - 2x FASTER 3x CHEAPER

3D CAD → Automated Quotation → Mold design + Optimization → Mold Machined → Parts

3D CAD → Quotation → Mold design → Mold machined → Parts

Great services with quick response time. Jonas is not afraid of innovative solutions which is a great asset when trying to make high quality products!

Great work! Jonas with his team helped us directly while developing a new hardware product. Our demands were understood and delivered as our mechanical engineers imagined.

Gets things done. Had few project and all were a successfully completed.

Jonas is highly skilled mechanical engineer. His knowledge in plastic injection molding was invaluable for us while we were working on a mechanical design of OVAO Virtual Training Assistant. I can recommend Jonas without any doubt for anyone who is looking...
